Mr. B. R. Bean, Chief
Radio Meteorology Section
Tropospheric Telecommunications Laboratory
Institute for Telecommunication Sciences
and Aeronomy
U. S. Department of Commerce
Environmental Science Services Administration
Boulder, Colorado 80301

Dear Brad:

I was delighted to receive a copy of your book on Radio Meteorology yesterday, and have gone through it rapidly already. It brings together in one place all of the papers you have published, which I can never find when I need them. Others will value it similarly, and I am sure that it will be a best-seller.

We were sorry that you could not come out to the building when you were last in Washington. We had a car standing by, but it was a rainy, congested day and we presumed that you were detained at DIA. Let me know when your next trip will be, and we can reschedule it. Besides myself, there are a number of people here who would like to talk with you when you have a moment.

Sincerely,

STATINTL

Albert D. Wheelon
Deputy Director
